1. General Introduction

This Guide is for the exclusive use of CRIB and its Data Providers only. It must not be copied or used in part or whole for any other purpose. CRIB and its Data Providers recognize the copyright of D&B on the basis of which this Guide has been designed.

This Guide describes how Data Providers should report consumer credit related information to CRIB. This format should be used for submitting data on all credit facilities in the names of individuals only and not for those accounts in the names of non-individuals. All borrowings in the name of individuals regardless of purpose should be included in this format. For e.g. a loan to Mr. Arjuna Ranatunga for the purpose of acquiring a commercial vehicle for business purpose is to be reported in this format. However, if the same loan were to be in the name of Arjuna Ranatunga & Co., the same will not be reported as a Consumer Credit Facility.

CRIB will accept data from Data Providers, only in the form of electronic data files hereafter called as “Data Input Files”.

Data Providers should read this document carefully before using the Consumer Input File Format for the extraction and delivery of data.

The personnel of the Systems/ Information Technology Department of the Data Provider must refer to this document in order to develop their data extraction program(s) internally or while using a third party utility.

This document assumes that the reader is familiar with the basic concepts and terms related to credit, data and systems.

2. Description of the File Layout

The Data Input File has the following hierarchy:

- **Field:** Refers to a data element.
- **Segment:** Refers to a collection of related fields – For e.g., an instance of a Credit Facility Segment.
- **Structure:** Refers to an instance of a Credit Facility Segment and all associated Sub-segments (including Subject segment(s) and Guarantor segment(s)).

The Data Input File layout has the description of the segments that make up the Consumer Input File Format and describes the fields that are contained in each segment. The column headings are consistent throughout the document. The layout and the meaning of column headings are described below:

- **No.:** Unique number assigned to each field in the segment in this document.
- **Field Name:** The name assigned to each data element requested in the Data Input File.
- **Field Option:**
 - ▶ **Required:** Indicates that the data element for the relevant Field Name is to be compulsorily furnished. Non-submission of a “Required” data element shall render the Data Input File or the Segment or the Structure defective. This may cause rejection of the Data Input File or the Segment or the Structure based on the assigned severity level.
 - ▶ **When Available:** Indicates that the data element is not mandatory. However, it shall be submitted wherever information is available with the Data Provider.
 - ▶ **Required Conditionally:** Indicates that the data element becomes mandatory based on certain condition(s). Data Provider should refer to the Description column for further instructions pertaining to such fields.
 - ▶ **Data Not Required:** Indicates that the data element need not be provided against this field. It is sufficient if the data provider provides a pipe delimiter to signify the beginning of the next field.

When data is not available for a When Available Field or if the field option is Data Not Required, it should be left blank and the delimiter should occur to indicate a null value. In such a case, the Input File will contain two consecutive delimiters as in the following example

CNCF|DP ID||Branch ID||Account Number|||||10000

- **Field Type:** Identifies the data type of each field. These are:
 - ▶ **Text:** Text fields shall be in letters and can contain alpha, numeric, print or alphanumeric characters. (Any printable characters can be used in this type of field i.e. ASCII).
 - ▶ **Numeric:** Only whole numbers (no decimals and without separators) will be accepted.

Consumer Input File Format – Banks and FIs

- ▶ **Date:** All dates should be in DD-MMM-YYYY format. For e.g. 1st July 2007 should be denoted as 01-Jul-2007.
- ▶ **Time:** All time should be in HHMMSS format.
- **Field Length:** Indicates the permitted field length applicable for the value of a given Field Name.
- **Description:** Contains the instructions to be followed with respect to a Field Name.

3. Formatting the Input File Format

In this format, every row corresponds to a Segment and the length of each Segment/Field can vary. Each and every instance of a Segment (for e.g. the Subject Segment details of a borrower) in the Data Input File should end with a carriage return and line feed [\r\n].

A predefined character delimiter separates the Fields. CRIB insists the usage of “|” (Pipe symbol) as the delimiter.

Encryption Support

Data Providers have to submit only encrypted data. The data providers have to use any of the following 3 software only, for encrypting their data:

- 1) PGP Desktop Home (v9.9.1 and above)
- 2) PGP Desktop Professional (v9.9.1 and above)
- 3) PGP Command Line

The following are the 2 methods of encrypted submission which are supported:

Method 1 – Encrypted Only (This is the minimum requirement to be adhered to by the Data Providers)

CRIB will share its Public Key with the Data Provider. The Data Provider will have to use this Public Key for encrypting the file and submitting it to CRIB.

Method 2 – Encrypted & Signed

CRIB will share its Public Key with the Data Provider. The Data Provider will have to use this Public Key for encrypting the file and submitting it to CRIB.

The Data Provider would have to share with CRIB the Public Key of the key pair used to sign the file.

File Naming Convention

The Data Input File must always conform to the following file naming convention and have a unique file name.

In case of encryption Method 1 being followed, then the file naming convention would be:

<Reporting Data Provider ID>-CON-<Date of file creation in DD-MMM-YYYY format>-<File creation time in HHMMSS format>.dlt.pgp

In case of encryption Method 2 being followed, then the file naming convention would be:

<Reporting Data Provider ID>-CON-<Date of file creation in DD-MMM-YYYY format>-<File creation time in HHMMSS format>.dlt.pgp.pgp

Decide with Confidence

Consumer Input File Format – Banks and FIs

Example of Header Segment as per Delimited Format

Delimiter used is “|”

A Header segment in the Data Input File after extraction of data as per Input File Format:

HDHD|1A2L21128|HO|30-Jun-2010|30-Jun-2010|172415|001

Note: When a Required Conditionally/ When Available field contains a null value, then the delimiter should occur to indicate a null value.

4. Segment Description of the Consumer Input File Format

Table 1 below describes the various Segments that make up the entire Data Input File.

Segment Identifier	Segment Name	Segment Option	Maximum Number of Entries
HD	Header	Required	1 per File
CF	Credit Facility	Required	n per File
CS	Subject	Required	n per Credit Facility
GS	Guarantor	Required Conditionally	n per Credit Facility
TL	Trailer	Required	1 per File

Header Segment (HD): Is a Required Segment and contains the general information about the Data Input File provided by the Data Provider. It occurs only in the BEGINNING of the Data Input File. It should appear only ONCE in the Data Input File and it will precede the other Segments.

Credit Facility Segment (CF): Is a Required Segment and contains information on Credit Facility provided to the Subject i.e. Borrower. It should appear at least once in the Data Input File but can appear multiple times in the file depending on the number of Credit Facilities, but without repeating the same Credit Facility per Account Number per Data Provider's branch.

Subject Segment (CS): Is a Required Segment and a sub segment of the Credit Facility Segment. This Segment contains details of each associated Subject (Borrower) for a particular Credit Facility. It should appear at least once per Credit Facility but can appear multiple times for a Credit Facility Segment, depending on the number of Subjects without repeating the same Subject for a Credit Facility. Data Provider can report Mailing Address and Permanent Address of the Subject in this Segment.

Guarantor Segment (GS): Is a Conditionally Required Segment and a sub segment of the Credit Facility Segment. It contains general information of the guarantor(s), if any, for each Credit Facility and can appear multiple times per Credit Facility. Data Provider can report Mailing Address and Permanent Address of the Guarantor in this Segment.

Trailer Segment (TL): Is a Required Segment and contains summary of the number of Credit Facility Segments reported in the Data Input File. It occurs only in the END of the Data Input File. It should appear only ONCE in the Data Input File and will be the FINAL segment in the Data Input File.

Consumer Input File Format – Banks and FIs

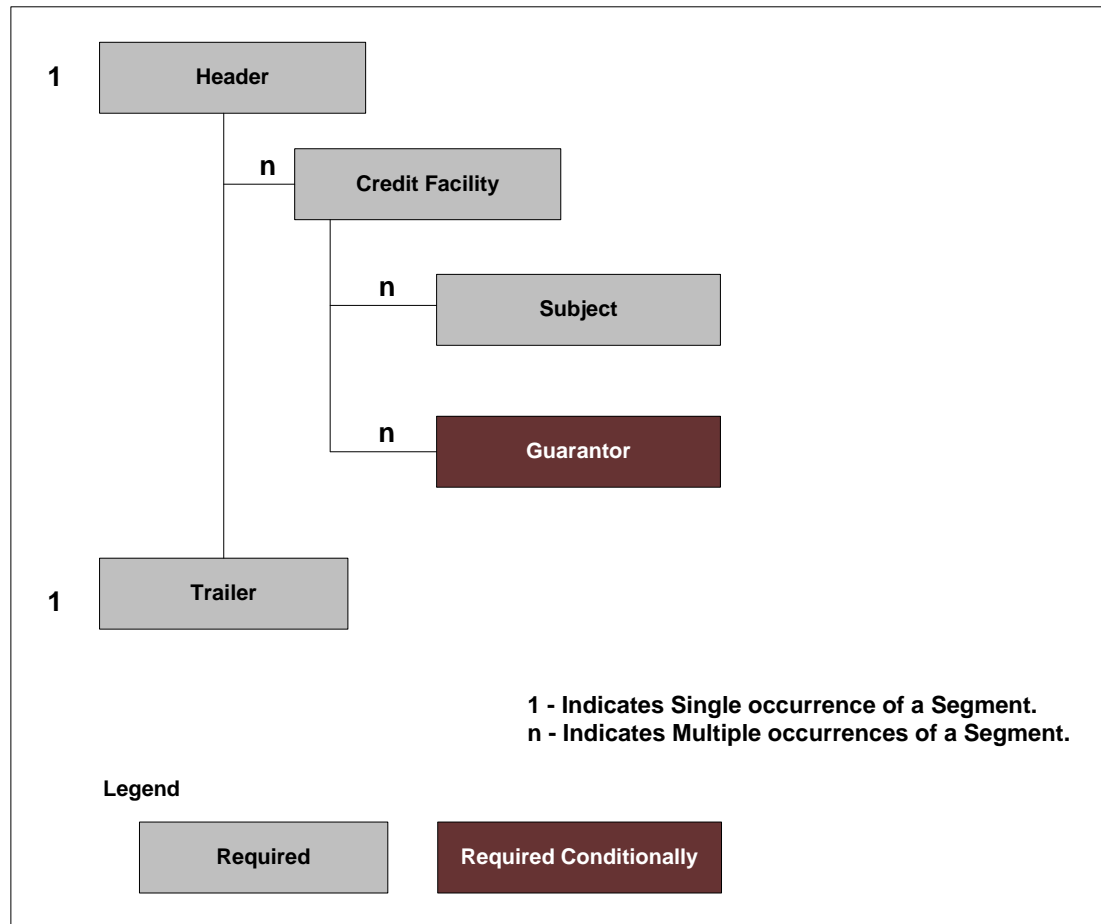

Segments can appear only in the following sequences:

Table 2

Segment Identifier	Is a Sub Segment of	Immediate following Segment
HD	-	CF
CF	HD	CS
CS	CF	CS/ GS/ CF/ TL
GS	CF	GS/ CF/ TL
TL	-	-

Consumer Input File Format – Banks and FIs

Figure 1 – File Layout Hierarchy

5. Method of Data Input File Submission

Data Providers should submit Data Input Files only in electronic form (in soft copy). CRIB will not accept data submission by Data Providers in hard copies (such as printouts, fax etc.).

Data Providers can submit their Data Input Files using either FTP (File Transfer Protocol) or manually deliver it to CRIB using external storage media (CD).

Electronic	FTP (File Transfer Protocol)
Manual	CD (Compact Disc)

Data Providers must ensure that the Data Input Files submitted to CRIB must not be virus infected.

6. Important Instructions to be followed while creating the Data Input File

The following instructions shall be observed strictly and are crucial to properly format data.

- The system will reject the field(s), segment(s) or structure(s) or the entire file in case of:
 - ▶ Non-submission of Required Segments and Conditionally Required Segments (if the condition arises) in the Data Input File.
 - ▶ Non-submission of Required Fields and Conditionally Required fields (if the condition arises) in the Data Input File.
 - ▶ Segments provided in the Data Input File Format are not as per the required sequence.
 - ▶ Fields provided in the Data Input File Format are not as per the required sequence.
 - ▶ Segments that do not contain data or contain invalid data or contain data not conforming to the business rules specified for each segment in the Data Input File will be rejected.
 - ▶ Fields that do not contain data or contain invalid data or contain data not conforming to the business rules specified for each segment in the Data Input File will be rejected.
 - ▶ Value in the fields containing the wrong field type. For e.g., if a Numeric field contains Text characters, the field will be rejected which could lead to a rejection of the field or segment or structure or the entire file.
- Data Input File should not contain Control Characters such as ~, ^ etc. as this leads to rejection of the entire file.
- Each and every segment should end with a carriage return and line feed [\r\n].
- Certain fields must have specific values cited in the Catalogues included in this document.
- All Date fields must have a valid calendar date and must be in DD-MMM-YYYY format. For e.g., the date 30th August, 1974 must be reported as 30-Aug-1974
- All Time fields must have a valid time and must be in HHMMSS format.
- Data Input File must always conform to the following file naming convention and have a unique file name.
 <Data Provider ID>-CON-<Date of file creation in DD-MMM-YYYY format>-<File creation time in HHMMSS format>.dlt
- Monetary amounts must be expressed in whole numbers (no decimals and without separators). All the fields except the Current Balance field (Credit Facility Segment (CF)) must be reported as positive. The Current Balance field can have

Consumer Input File Format – Banks and FIs

negative value, when a loan/ credit facility is in credit balance. Negative values must be prefixed with a minus symbol at the starting position of the field.

- In the case of a Joint application, each distinct Subject Segment must be reported as a part of one Credit Facility structure.

For e.g., Mr. Arjuna Ranatunga has taken a Housing Loan jointly with Mr. Marvan Atapattu and this loan is guaranteed by Mr. Aravinda De Silva, the information for this loan will be reported to CRIB as follows:

Segment	Details Pertaining to
Credit Facility	Housing Loan
Subject	Mr. Arjuna Ranatunga
Subject	Mr. Marvan Atapattu
Guarantor	Mr. Aravinda De Silva

- In case of multiple loans availed by the Subject from the same Data Provider, then the information on such loans must be reported SEPARATELY as multiple Credit Facility structures
- Annexure A should be provided along with Data Input File when submitted by the Data Provider to CRIB for a CD based submission. In the interest of security, CRIB will process only those Data Input Files that are accompanied with Annexure A included in this document.

7. Rules pertaining to values in Date fields

Please ensure that the values in the date fields adhere to the rules listed below:

7.1. Header Segment (HD)

1. Date of Preparation of Input File

Must be equal to or later than the following:

- Reporting Date
- First Disbursement Date (Credit Facility Segment (CF))
- Date of Latest Payment Received (Credit Facility Segment (CF))
- Credit Facility Restructuring Date (Credit Facility Segment (CF))
- Credit Facility End Date (Credit Facility Segment (CF))

Must be later than the following:

- Date of Birth (Subject Segment (CS))
- Date of Birth (Guarantor Segment (GS))
- Date of Registration (Guarantor Segment (GS))

2. Reporting Date

Must be equal to or earlier than Date of Preparation of Input File

Must be equal to or later than the following:

- First Disbursement Date (Credit Facility Segment (CF))
- Date of Latest Payment Received (Credit Facility Segment (CF))
- Credit Facility Restructuring Date (Credit Facility Segment (CF))
- Credit Facility End Date (Credit Facility Segment (CF))

Must be later than the following:

- Date of Birth (Subject Segment (CS))
- Date of Birth (Guarantor Segment (GS))
- Date of Registration (Guarantor Segment (GS))

7.2. Credit Facility Segment (CF)

3. First Disbursement Date

Must be equal to or earlier than the following

- Date of Preparation of Input File (Header Segment (HD))
- Reporting Date (Header Segment (HD))
- Credit Facility End Date

Must be earlier than the following:

Consumer Input File Format – Banks and FIs

- Date of Latest Payment Received
- Credit Facility Restructuring Date

Must be later than the following:

- Date of Birth (Subject Segment (CS))
- Date of Birth (Guarantor Segment (GS))
- Date of Registration (Guarantor Segment (GS))

4. Date of Latest Payment Received

Must be equal to or earlier than the following:

- Date of Preparation of Input File (Header Segment (HD))
- Reporting Date (Header Segment (HD))
- Credit Facility End Date

Must be later than the following

- First Disbursement Date
- Date of Birth (Subject Segment (CS))
- Date of Birth (Guarantor Segment (GS))
- Date of Registration (Guarantor Segment (GS))

5. Credit Facility Restructuring Date

Must be equal to or earlier than the following:

- Date of Preparation of Input File (Header Segment (HD))
- Reporting Date (Header Segment (HD))

Must be earlier than the Credit Facility End Date

Must be later than the following:

- First Disbursement Date
- Date of Birth (Subject Segment (CS))
- Date of Birth (Guarantor Segment (GS))
- Date of Registration (Guarantor Segment (GS))

6. Credit Facility End Date

Must be equal to or earlier than the following:

- Date of Preparation of Input File (Header Segment (HD))
- Reporting Date (Header Segment (HD))

Must be equal to or later than the following:

- First Disbursement Date
- Date of Latest Payment Received

Must be later than the following:

Consumer Input File Format – Banks and FIs

- Credit Facility Restructuring Date
- Date of Birth (Subject Segment (CS))
- Date of Birth (Guarantor Segment (GS))
- Date of Registration (Guarantor Segment (GS))

7.3. Subject Segment (CS) and Guarantor Segment (GS)

7. Date of Birth (Subject Segment (CS) and Guarantor Segment (GS))/Date of Registration (Guarantor Segment (GS))

Must be earlier than the following:

- Date of Preparation of Input File (Header Segment (HD))
- Reporting Date (Header Segment (HD))
- First Disbursement Date (Credit Facility Segment (CF))
- Date of Latest Payment Received (Credit Facility Segment (CF))
- Credit Facility Restructuring Date (Credit Facility Segment (CF))
- Credit Facility End Date (Credit Facility Segment (CF))

8. Consumer Credit Bureau File Format – Data Segments and Data Fields

8.1. Header Segment (HD)

- Is a Required segment
- Contains the general information about the Data Input File provided by the Data Provider
- It should appear only ONCE in the Data Input File
- Occurs only in the BEGINNING of the Data Input File
- It will precede other Segments

No.	Field Name	Field Option	Field Type	Field Length	Description
1.	Segment Identifier	Required	Text	4	Must contain the value HDHD
2.	Data Provider ID	Required	Text	9	Must contain the Identification Number assigned by CRIB/ CBSL to the Data Provider. If the Data Provider ID changes and the new Data Provider ID is being reported for the first time, complete this field with the new Data Provider ID.
3.	Data Submission Point ID	Required	Text	4	Must contain the Data Submission Point ID i.e. Head Office ID/Branch ID/Regional Office ID that is submitting data directly to CRIB. If the Data Submission Point ID changes and the new Data Submission Point ID is being reported for the first time, complete this field with the new Data Submission Point ID.
4.	Date of Preparation of Input File	Required	Date	11	Date when the Input File was created/ extracted/ generated from the Data Provider's system. Must be valid calendar date

Consumer Input File Format – Banks and FIs

No.	Field Name	Field Option	Field Type	Field Length	Description
					and in DD-MMM-YYYY format. Refer to Rules pertaining to values in Date fields on page 18 for validation rules on date field.
5.	Reporting Date	Required	Date	11	This is the date AS ON WHICH the data is reported to CRIB. This is not the date on which the Data Input File was created nor the date of extraction. Must be a valid calendar date and in DD-MMM-YYYY format. E.g. ABC Bank reports data as on March 31, 2006, extracts the Data Input File on April 05, 2006 and submits the data to CRIB on April 12, 2006. In this case, the Reporting Date will be 31-Mar-2006. Refer to Rules pertaining to values in Date fields on page 18 for validation rules on date field.
6.	Reporting Time	Required	Numeric	6	This is the time AS ON WHICH the data is reported to CRIB. This is not the time on which the Input File was created nor the time of extraction. Must be valid Time and in HHMMSS format. E.g. ABC Bank reports data as on March 31, 2006, extracts the Data Input File and submits the data to CRIB on April 05, 2006. In this case, the Reporting Time will be as on March

Consumer Input File Format – Banks and FIs

No.	Field Name	Field Option	Field Type	Field Length	Description
					31, 2006, For e.g., 210000, which is normally the Data Providers' End of Day processing time stamp.
7.	Nature of Data	Required	Text	3	Contains the Nature of the data reported by the Data Provider in this particular file. Refer Catalogue 001 – Nature of Data on page 64 for a list of valid values.

Consumer Input File Format – Banks and FIs

8.2. Credit Facility Segment (CF)

- Is a Required segment
- Contains information on Credit Facility provided to the Subject i.e. Borrower
- It should appear at least once in the Data Input File
- It can appear multiple times per the Data Input File without repeating the same Credit Facility per Account Number per Data Provider's Branch

No.	Field Name	Field Option	Field Type	Field Length	Description
1.	Segment Identifier	Required	Text	4	Must contain the value CNCF
2.	Data Provider ID	Required	Text	9	<p>Must contain the Identification Number assigned by CRIB/ CBSL to the Data Provider.</p> <p>If the Data Provider ID changes and the new Data Provider ID is being reported for the first time, complete this field with the new Data Provider ID.</p> <p>Provide the old Data Provider ID in the Previous Data Provider ID.</p>
3.	Previous Data Provider ID	Required Conditionally	Text	9	<p>Will contain the Previous Identification Number assigned by CRIB/ CBSL to the Data Provider.</p> <p>The Previous Identification Number should be provided in the immediate submission following a change in Data Provider ID due to merger or acquisition or any other reason.</p> <p>Hence, post a merger or acquisition or any such reason prompting</p>

Consumer Input File Format – Banks and FIs

No.	Field Name	Field Option	Field Type	Field Length	Description
					a change in the Data Provider ID, the Previous Data Provider ID becomes a Required field in the submission immediately following such a change.
4.	Data Provider Branch ID	Required	Text	4	<p>Must contain the Branch ID used internally by the data provider to identify the local office/ branch reporting Credit Facility pertaining to the Subject in the Credit Facility Segment.</p> <p>If the Data Provider Branch ID changes and the new Data Provider Branch ID is being reported for the first time, complete this field with the new Data Provider Branch ID.</p> <p>Provide the old Data Provider Branch ID in the Previous Data Provider Branch ID.</p>
5.	Previous Data Provider Branch ID	Required Conditionally	Text	4	<p>Will contain Previous Branch ID used internally by the data provider to identify the local office/ branch reporting Credit Facility pertaining to the Subject in the Credit Facility Segment.</p> <p>Previous Internal ID should be provided in the immediate submission following a change in Data Provider Branch ID due to merger or</p>

					<p>acquisition or any other reason.</p> <p>Hence, post a merger or acquisition or any such reason prompting a change in the Data Provider Branch ID, the Previous Data Provider Branch ID becomes a Required field in the submission immediately following such a change.</p>
6.	Credit Facility Account Number	Required	Text	24	<p>Must contain the Credit Facility Account Number (or Credit Card Number) assigned by the Data Provider to the Subject's Credit Facility and as maintained within the Data Provider's internal systems.</p> <p>If the Credit Facility Account Number changes and the new Credit Facility Account Number is being reported for the first time, complete this field with the new Credit Facility Account Number.</p> <p>Provide the old Credit Facility Account Number in the Previous Credit Facility Account Number.</p> <p><i>If the Ownership Indicator is reported as "003 – Authorised User/ Supplementary Card Holder" then report the Authorised</i></p>

Consumer Input File Format – Banks and FIs

No.	Field Name	Field Option	Field Type	Field Length	Description
					<i>User/ Supplementary Card Holder's Card Number in this field and also report Primary Card Holder's Card Number in the Primary Card Number field.</i>
7.	Primary Card Number	Required Conditionally	Text	24	<p>If the value for Ownership Indicator field is reported as "003 – Authorised User/ Supplementary Card Holder" then Primary Card Number field becomes a Required field.</p> <p>If the Primary Card Number changes and the new Primary Card Number is being reported for the first time, complete this field with the new Primary Card Number. Provide the old Primary Card Number in the Previous Primary Card Number.</p>
8.	Primary Card Credit Limit	Required Conditionally	Numeric	12	<p>If the value for Ownership Indicator is reported as "003 – Authorised User/ Supplementary Card Holder" then report the Limit assigned to the associated Primary Card Number in this field.</p> <p>Primary Card Credit Limit becomes a Required field if Primary Card Number is provided</p>

Consumer Input File Format – Banks and FIs

No.	Field Name	Field Option	Field Type	Field Length	Description
9.	Previous Credit Facility Account Number	Required Conditionally	Text	24	<p>Will contain the Previous Credit Facility Account Number assigned by the Data Provider to the Subject's Credit Facility and as maintained within the Data Provider's internal systems.</p> <p>Previous Credit Facility Account Number should be provided in the immediate submission following a change in Credit Facility Account Number due to merger or acquisition or any other reason.</p> <p>Hence, post a merger or acquisition or any such reason prompting a change in the Credit Facility Account Number, the Previous Credit Facility Account Number becomes a Required field in the submission immediately following such a change.</p>
10.	Previous Primary Card Number	Required Conditionally	Text	24	<p>Will contain the Previous Primary Card Number assigned by the Data Provider to the Primary Card Holder.</p> <p>Previous Primary Card Number should be provided in the immediate submission following a change in Primary Card Number due to merger or</p>

Consumer Input File Format – Banks and FIs

No.	Field Name	Field Option	Field Type	Field Length	Description
					acquisition or any other reason. Hence, post a merger or acquisition or any such reason prompting a change in the Primary Card Number, the Previous Primary Card Number becomes a Required field in the submission immediately following such a change.
11.	Date of Credit Facility Approval	Data Not Required			Data need not be submitted against this field. In the Input file the field should be left blank and two consecutive delimiters () should be reported.
12.	Amount Granted/Limit	Required	Numeric	12	For Credit Card Accounts, this field contains the Credit Limit as approved by the Data Provider. If the Ownership Indicator is reported as “003 – Authorised User/ Supplementary Card Holder” then report the sublimit of the secondary card (if sublimit is assigned), else report the associated Primary Card’s Credit Limit in this field (in this case, field would contain the same value as Primary Card Credit Limit For all other Credit Facility Types, this field contains the amount of the credit approved.

Consumer Input File Format – Banks and FIs

No.	Field Name	Field Option	Field Type	Field Length	Description
					This amount is a whole number (no decimals and without separators) and is assumed to be positive. For all other Credit Facility Types, this field contains the amount of the loan approved.
13.	Highest Credit	Data Not Required			Data need not be submitted against this field. In the Input file the field should be left blank and two consecutive delimiters () should be reported.
14.	Currency	Required	Text	3	Contains the Currency Code of the amount approved by the Data Provider. If the Ownership Indicator is reported as "003 – Authorised User/ Supplementary Card Holder" then report the corresponding Primary Card's Currency of Credit Sanction in this field. Refer Catalogue 002 – Currency Code on page 64 for a list of valid values.
15.	Ownership Indicator	Required	Text	3	Contains the Ownership Indicator Code for the Credit Facility enjoyed/availed by the Subject. If the value for Ownership Indicator field is reported as "002" i.e. Joint then the

Consumer Input File Format – Banks and FIs

No.	Field Name	Field Option	Field Type	Field Length	Description
					structure must consist of more than one Subject Segment. Refer Catalogue 003 – Ownership Indicator on page 70 for a list of valid values.
16.	Credit Facility Type	Required	Text	3	Contains the Credit Facility Type Code pertaining to the Credit Facility Type enjoyed/availed by the Subject. Refer Catalogue 004 – Credit Facility Type on page 70 for a list of valid values.
17.	Purpose of Credit Facility	Required	Text	9	Contains the codification of the Purpose of Credit Facility for which the credit facility has been granted. Refer Catalogue 005 – Purpose of Credit Facility on page 70 for a list of valid values.
18.	Number of Instalments	Required Conditionally	Numeric	3	Must contain the Total Number of Instalments that indicates the number of payments to be provided by the Subject to the Data Provider for the repayment of the Credit Facility. Hence, this field becomes a Required field for all Credit Facility Types where there is a fixed repayment instalment amount.
19.	Instalment	Required	Numeric	12	Must contain the

					Data.

8.3. Subject Segment (CS)

- Is a Required Segment
- This is a sub segment of the Credit Facility Segment
- Contains details of each associated Subject for a particular Credit Facility
- It should appear at least once per Credit Facility
- It can appear multiple times per Credit Facility
- Data Provider can report two addresses of the Subject such as Mailing Address and Permanent Address
- In the case of Supplementary Card Holder accounts/credit facilities, the details pertaining to the Supplementary Card Holder Subject must be reported in this segment

No.	Field Name	Field Option	Field Type	Field Length	Description
1.	Segment Identifier	Required	Text	4	Must contain the value CNCS
2.	Data Provider ID	Required	Text	9	Must contain the Identification Number assigned by CRIB/ CBSL to the Data Provider.
3.	Data Provider Branch ID	Required	Text	4	Must contain the Branch ID used internally by the data provider to identify the local office/ branch reporting Credit Facility pertaining to the Subject in the Credit Facility Segment.
4.	Credit Facility Account Number	Required	Text	24	Must contain the Credit Facility Account Number (including Credit Card Number) assigned by the Data Provider to the Subject's Credit Facility and as maintained within the Data Provider's internal systems. In the case of Supplementary Card Holders, the Supplementary Card Number must be reported in this field.
5.	Subject Identification Number	When Available	Text	24	Must contain the Identification Code assigned to the Subject by Data Provider. .

Consumer Input File Format – Banks and FIs

No.	Field Name	Field Option	Field Type	Field Length	Description
6.	Subject Previous Identification Number	Data Not Required			Data need not be submitted against this field. In the Input file the field should be left blank and two consecutive delimiters () should be reported.

46.	URL	Data Not Required			Data need not be submitted against this field. In the Input file the field should be left blank and two consecutive delimiters () should be reported.

Decide with Confidence

Consumer Input File Format – Banks and FIs

8.5. Security Segment (SS)

The Security segment need not be reported to CRIB. Instead the Security Type has to be reported for secured Credit Facilities i.e. whether the Security is a "Movable Asset" or "Immovable Asset". This information has to be reported as part of the Credit Facility segment itself.

Please refer to Field No 33. 'Security Type' under the Credit Facility segment for the exact reporting requirements.

8.6. Trailer Segment (TL)

- Is a Required segment
- Contains summary of the number of Credit Facility Segments reported in the Data Input File
- Occurs only in the END of the Data Input File
- It should appear only ONCE in the Data Input File
- It will be the FINAL segment in the Data Input File

No.	Field Name	Field Option	Field Type	Field Length	Description
1.	Segment Identifier	Required	Text	4	Must contain the value TLTL
2.	Data Provider ID	Required	Text	9	Must contain the Identification Number assigned by CRIB/ CBSL to the Data Provider.
3.	Data Submission Point ID	Required	Text	4	Must contain the Data Submission Point ID i.e. HO/ Zonal office/ Branch ID that is submitting data directly to CRIB.
4.	Number of Credit Facilities	Required	Numeric	8	Must contain the Number of Credit Facilities in the Data Input File.

12. Annexure B - Consumer Catalogue Description

Catalogue values	Catalogue Code	Description
003 – Ownership Indicator		
Own/Primary Card Holder	001	The Owner or Borrower of the Credit Facility. Primary Card holder is the person to whom the card has been issued and who is authorized to use the card.
Joint	002	An account held by more than one subject is termed as a Joint Account. In case of joint account, all the owners of the account will have liabilities to the charges on the account.
Authorized User/ Supplementary Card Holder	003	Authorized User is a nominated user of an account. The primary card holder provides access to another person (often a spouse, partner, or child) to his account. The primary user is liable to all charges on account including those made by the authorized users. The supplementary card is an add-on card to the primary credit card. The supplementary card holder is liable to pay if the primary card holder defaults.
004 – Credit Facility Type		
Bank Guarantee	010	Bank Guarantee is a fee based facility to the subject, from a lending institution ensuring in the form of guarantee that the liabilities of a debtor will be met within time duration i.e. if the debtor fails to settle a debt, the bank will cover it.
Credit Card	020	Credit Card allows the subject to avail revolving credit within the specified amount limit.
Hire Purchase	030	Hire purchase is an agreement in writing under which a buyer hires durable consumer goods, commercial vehicles machinery/ equipment etc. from its owner at a fixed rent with an option to purchase.
Leasing	040	Leasing is a facility provided to the subject with an objective of transferring the

Consumer Input File Format – Banks and FIs

Catalogue values	Catalogue Code	Description
		ownership of the asset at the end of the lease period. The subject (lessee) pays Monthly Installment (lease rentals) to the Financial Institution/ bank (lessor). During the tenure of the facility (Lease Period) the Bank/Financial Institution has the control of the asset by way of a charge on it.
Loan	050	Loan is a facility given to a subject to either meet a long term need or short term need or to purchase an asset, where the subject agrees to repay the loan along with interest either in installments or lump sum. Loans can be either demand loan or term loan.
Overdraft	060	<p>Overdraft is a facility provided to subject as a running account facility where the account-holder could remit and draw funds freely, of course, to the limit granted in the current account. The subject has the liberty to draw and remit funds from/to account without any notice.</p> <p>An ordinary current account, which is normally in credit, becomes overdrawn by the passage of a Cheque drawn for a sum more than the credit balance at the foot of the account. This is done at the specific request of the account holder. This is referred to as “Temporary Overdraft”.</p>
Letter of Credit	070	A letter of credit is an arrangement whereby a banker acting at the request of the subject, undertakes to pay a third party, by a given date according to agreed stipulations against the presentation of the documents, the counter value of the goods or services is rendered or otherwise. The banker after making the payment of the bill to the seller, presents it to the buyer and obtains the payment of it.
Consumer Durables	080	This is a type of credit facility provided to the subject for purchasing the Consumer durable goods such as Refrigerators, DVD Players, and Home Appliances etc. The financier pays the cost (except the margin money/down payment) of the durable item to the Dealer/Manufacturer and then collects the Amount Financed and Interest

Consumer Input File Format – Banks and FIs

Catalogue values	Catalogue Code	Description
		thereon in equated monthly installments from the subject.
Factoring	090	Factoring can be described as the provision of finance against the security of trade debts.
006 – Repayment Type		
Balloon	001	A balloon repayment schedule involves major portion of the repayment of a loan/facility is made at or near the maturity date. It may be substantially larger than the earlier payments, if any made.
Bi Monthly	002	A Repayment type where the term loan/facility is scheduled to be repaid in equated bi-monthly (every 2 months) installments is called as Bi-monthly Repayment.
Bullet	003	A Repayment type where the repayment is scheduled as a single payment for an entire loan amount at maturity loan.
On Demand	004	Demand loans are repayable on demand (i.e. without prior notice), rather than on a specific date.
Monthly	005	A Repayment type where the loan/facility is scheduled to be repaid in monthly installments.
Quarterly	006	A Repayment type where the loan/facility is scheduled to be repaid in quarterly (every 3 months) installments.
Semi Annual	007	A Repayment type where loan/facility is scheduled to be repaid in semi annual (every 6 months) installments.
Weekly	008	A Repayment type where the loan/facility is scheduled to be repaid in weekly (every 7 days or so) installments.
Bi weekly	009	A Repayment type where the loan/facility is scheduled to be repaid in bi-weekly (every 14 days or so) installments.
Annually	010	A repayment type where the loan/facility is scheduled to be repaid in yearly installments.

Consumer Input File Format – Banks and FIs

Catalogue values	Catalogue Code	Description
Repayment Every 4 Months	011	A repayment type where the loan/facility is scheduled to be paid in installments that are due every 4 months.
Repayment Every 9 Months	012	A repayment type where the loan/facility is scheduled to be paid in installments that are due every 9 months.
007 – Credit Facility Status		
Active	001	The credit facility service to the subject is active currently and transactions are allowed.
Legal Action	002	Legal Action has been initiated in a Court of Law/ Tribunal by a Bank/Financial Institution to recover the dues of a loan/ facility.
Liability Assumed by Government	003	The Government takes over the liability of repayment of loan/facility on behalf of the subject.
Natural Disaster Affected	004	In case of the natural Disasters banks rescheduled/restructured the credit facility by delaying the repayment of principal and interest amount to reduce the burden on the subject.
Closed	005	The credit facility has been closed by the lending Bank/Financial Institutes at their own discussion.
Restructured/ Rescheduled	006	There is a change in the repayment amount/installment/interest rate/ repayment period so as to accommodate the subject's inability to meet the demand.
Settled	007	The credit facility availed by the subject has been settled by the repayment of principal and interest or as agreed with the lending institution.
Terminated	008	The credit facility service to the subject is terminated as the subject violated the terms & conditions with regard to repayment or use of the credit availed.
Written Off	009	The outstanding amount of a credit facility has been written off in full or partly and is removed from the books of the Banking / Financial Institutions.

Consumer Input File Format – Banks and FIs

Catalogue values	Catalogue Code	Description
Reposessed and sold	010	The Security provided for the Credit Facility is reposessed by the lending institution due to default and then the asset is sold off to make up the outstanding amount.
Reposessed and settled	011	The Security provided for the Credit Facility is reposessed by the lending institution due to default and then subsequently the Credit Facility is settled, after the outstanding amount is paid by the customer.
Parate action	012	The security provided for the Credit Facility is sold by the lending institution (to recover the outstanding amount) without the intervention of the courts and subsequently the Credit Facility is settled.
Arbitration	013	<p>Arbitration is a legal technique for the resolution of disputes outside the courts, wherein the parties (Lender and the Customer) to a dispute refer it to one or more persons (the arbitrators) by whose decision (the "award") they agree to be bound by.</p> <p>It is a settlement technique in which a third party reviews the case and imposes a decision that is legally binding for both the parties (Lender and the Customer)..</p>
Settled through courts	014	Settlement of the Credit Facility through the intervention of the court of law.
Facility cancelled	015	Facility has been cancelled at the request of the customer or Facility has been cancelled by the lending institution before disbursement.
Reposessed	016	The Security provided for the Credit Facility is reposessed by the lending institutions due to default.
Settled – Part Written off	017	Where a negotiated settlement has been effected and a part of the facility is written off.
009 – Security Coverage		
Fully Secured	001	The value of the security provided for the credit facility is equal to or more than value of the credit availed by the subject.

Consumer Input File Format – Banks and FIs

Catalogue values	Catalogue Code	Description
Partially Secured	002	The value of the security provided for the credit facility is less than value of the credit availed by the subject.
Unsecured	003	No security has been provided for availing the credit facility.
010 – Guarantee Coverage		
Other Guarantee	001	The Credit facility availed by the subject has been guaranteed by another individual/entity. The individual/entity guarantees for the regular repayment of the principal & interest.
Not Guaranteed	002	The credit facility availed has not been guaranteed by any one else.
Government Backed Guarantee	003	The Government guarantees the repayment of credit availed by the subject.
011 – Transaction Type Code		
Normal Data	001	The data submitted by the information provider as a part of periodic submission of the information about the subject to the bureau.
